

# Africa

## A Designer's Utopia

Presented by

nmbello Studio and Limbo Accra

The “AFRICA-A DESIGNER’S UTOPIA” - competition is initiated in collaboration with Limbo Accra & nmbello studio to encourage design students from Nigeria and Ghana to think contextual in their design approach by considering the manufacturing urban landscape of their city.

To achieve this, we encourage entrants to collaborate with local craftsmen to create an economically viable and long lasting product for the home.

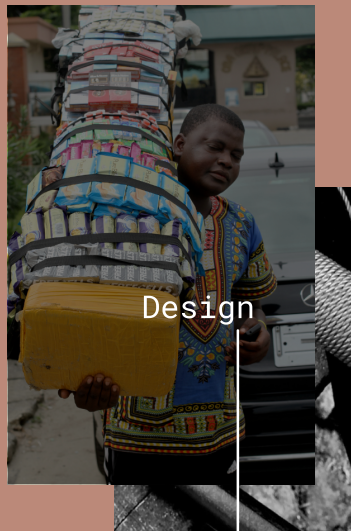

Students are encouraged to submit a design proposal with a concept of a final product. The final design should speak to locally readily available manufacturing and production techniques.

### WINNING PRIZE

- Concept Product developed in collaboration with nmbello Studio
- Exhibition of final work at group exhibition to take place in Accra in 2022.
- More TBA

### SUBMISSIONS

To enter please send a .pdf document with sketches, CAD and/or images of your concept, showing your ideas, developments and final design. This includes a 500 word concept note.
